

Kids' Shoe Sizing Guide

1. Stand up

- Take off your shoes
- Position your right heel firmly on heel line

2. Measure the length of your feet

- Keep your socks snug but not restrictive against your toes
- Press your toes flat against base of sizer
- Look straight down over longest toe
- See the line that it touches for your shoe size

3. Measure the width

- Keep your heel on heel line
- Align your right foot's left side to sizer's left side
- Determine where this foot's right edge falls
- Choose your width by the letters in the gray shaded area.

***Remember to measure both feet!**

Baby: 0-4, **Toddler:** 2-10.5, **Pre-School:** 11-3

Grade School: 3.5-7, **Kids:** 11-7
